Regional Strategies to Address Coastal Flooding A Workshop for Atlantic Coast Municipalities

Thursday, April 13, 2017

5:30PM — 8:00PM

Hampton Falls Town Hall, 1 Drinkwater Road

Municipal staff, boards and commissions, and elected officials from the seven Atlantic Coast municipalities are invited to attend a workshop to learn about what other municipalities are doing to address coastal flooding and discuss shared regional resilience issues and needs.

Workshop Agenda

- ◆ *Registration & Light Refreshments*
- ◆ *Overview of Coastal Commission's Report & Setting SAIL Project*
- ◆ *Summary of Atlantic Coast Vulnerability Assessments*
- ◆ *Examples of Local Projects to Inspire Regional Action*
- ◆ *Regional Resilience Roundtable*

[Register Here](#)

The Setting SAIL project offers this workshop to assist Atlantic coast municipalities in implementing recommendations from the ***New Hampshire Coastal Risk and Hazards Commission's final report*** and the [Tides to Storms Vulnerability Assessment](#). These reports act as a framework to better understand NH's coastal hazards and flood risks, and provides potential strategies to prepare for projected storm surge, sea-level rise, and extreme precipitation. Workshop presentations and discussion will focus on regional actions to reduce vulnerability of critical Atlantic Coast assets and resources.

For more information about this workshop contact:

Julie LaBranche, Rockingham Planning Commission at jlabranche@rpc-nh.org or call (603) 778-0885
